

THE BULLETIN.

MAYSVILLE, MAY 5, 1864.

Gold declined in New York Tuesday to 77 1/2.

Some radical papers are very much agitated because soldiers of the Eight Tennessee broke up a colored children in Columbia, Tenn., and flogged its colored teacher on the ground that white children, being unable to obtain the advantages of education, he should not, after due warning, extend the privilege to little negroes.

At the regular annual meeting of the members of the Union Agricultural Society for Mason and Bracken counties, held in Germantown, on the first Saturday in April, 1864, the following persons were elected as officers of said society for the ensuing year:

The bill for the payment of colored troops has at last been passed by Congress. The remuneration is \$13 per month.

The Maryland Constitutional Convention meet at Annapolis on Wednesday. Eighty members qualified by taking the oath of unconditional loyalty to the National Constitution and the State of Maryland. Sixteen members did not report.

From the Southwest we learn that Texas is being evacuated by the Federal troops. The Rebel Gen. Polk is also said to be with a strong force moving toward Baton Rouge at Port Hudson.

There is a rumor to this effect, that Gen. Banks is to be succeeded by Gen. Auger.

The plantations, worked under Northern supervision, do not seem to flourish. The Rebels make an especial war against them. In Louisiana the guerrillas are determined to work havoc among all such plantations.

We had some doubts that Spring, with "leafy bowers," "azure violets," and other similar things, would ever again wake the earth to new life and beauty; but one day last week all our gloomy doubts and fears were pleasantly dispelled. Let all who shiver round some blazing fire, and sigh for a glimpse of something bright and vernal, peep into our sanctum, and look at a most beautiful Bouquet, presented by Mrs. OTHO DAVIS. Our knowledge of Flora is so limited that we can not tell our fair readers the names by which these lovely gems are known, and can only say that they are exquisite, and most tastefully arranged. Mrs. DAVIS will please accept warmest thanks for her kind gift.

A FINE CHANCE FOR AN INVESTMENT.—Mr. J. F. BRODRICK, advertises his city residence for sale in to-day's issue. The property is well improved, and located in a beautiful portion of the city. See Advertisement.

The Government has received a special dispatch from Fort Monroe that Beauregard's army has passed through Petersburg, on its way to Richmond. Its numbers are estimated at from 18,000 to 20,000.

It is reported that General Polk is at Camp More, ninety miles from New Orleans, with 15,000 to 20,000 troops, to move on Port Hudson or Baton Rouge.

The Southern Government has taken possession of all the railroads in the South for the next sixty days.

Lee's force is estimated at 100,000 men.

It is reported that General Banks is to be superseded by General Auger.

A dog in Boston has been named Quota because he never seems to be full.

The sutlers in the Potomac army make \$50 profit on a barrel of cider.

The Paris police reports say that during the past year over ten thousand dead newly born infants have been detected at the gratings of the immense reservoir into which the sewers empty their contents.

A short time since a Boston paper company threshed 13,000 pounds of clean sand from sixty bales of rags imported from Egypt, being 22 per cent. of the whole weight. The rags were taken from mummies in the catacombs, and the sand was sifted in by the Egyptian shapers to increase their weight.

It is said there are over 200,000 Hebrews in the United States, and but 35,000 in Great Britain.

Special Notices.

Let those who have doubted the virtues of Bull's Cedron Bitters, if any such there be, read the following Certificate from gentlemen well known in this community, and doubt no more. Its general introduction into the army will save the lives of thousands of our soldiers.

Louisville, Ky., June 23, 1863.
We, the undersigned, have seen the good effects produced by the use of Dr. John Bull's Cedron Bitters in case of general debility and prostration of the system, and believe its general use would prevent disease and relieve much suffering. Among our soldiers particularly would this be the case, especially those who are exposed to miasmatic influences in the Southern climate.

MULLINS & HUNT'S NEW WHOLESALE DRY GOODS STORE!

THE SUBSCRIBERS, LONG ESTABLISHED in a large retail Dry Goods business in Maysville, would call the attention of Country Merchants to their recent addition of an extensive Wholesale Department; which will be conducted on a STRICTLY CASH PRINCIPLE.

The many years of experience possessed by our buyer, combined with a perfect knowledge of the Kentucky trade, a thorough acquaintance with all the Manufacturing and Importing Houses in the East, and the fact of our purchases being made for "Cash," together with a firm determination to sell at a more commission advance on Eastern Cost, will be sufficient guarantee to CLOSE CASH BUYERS that we cannot be undersold by any WESTERN JOB-BING HOUSE.

Our Stock will be found better adapted to the wants of our customers than it is usual to find in the generality of JOBBING HOUSES; as it will embrace a greater variety of goods than is ordinarily met with in an exclusive Wholesale Establishment. The departments allotted to

HATS AND CAPS AND Notions, Will be at all times especially attractive as particular attention will be paid to them, and a LARGE STOCK Kept constantly on hand. We would impress upon our friends that in sending us orders they may rely upon having them executed to the fullest extent of our ability.

Convex Reflector Lantern! FOR BURNING COAL OIL WITHOUT A CHIMNEY. IT Possesses many qualities which highly commend it, and is pronounced by all who have tested its merits, altogether the most desirable lantern they have met with.

1. It gives a pure white light—without chimney. 2. It stands upon four legs in any direction. 3. The flame is regulated from the outside, and is a neat and compact form and size. 4. It is free from solder in the upper parts, and is otherwise very substantial in its structure. 5. It has the glass sides so arranged that breakage is less likely to occur than in other lanterns, and in the event of breakage can be easily replaced. 6. It has CONVEY REFLECTORS which increase greatly the force of the flame; serving at same time the purpose of shades to the eyes, which is very desirable. 7. It is sold at a LOWER PRICE, with all these advantages, than any lantern in the market, which admits of the flame being regulated from the outside.

For sale by SEATON & BRODRICK, Cor. 2nd & Court Sts. April 21
